SUBJECT: Review of Title V Operating Permit
General Electric Company

RE: Operating Permit File No. 0005a
Amendment to 0005

TO: Sandra L. Etzel
Chief Engineer

FROM: David Good
Air Quality Engineer

AMENDMENT DESCRIPTION:

The originally issued permit is being amended by an Administrative Permit Amendment to address typographical errors in the permit as per Article XXI §2103.14.b.

General changes:

General changes are those that are insignificant and typographical in nature. Specifically, cross-references were corrected. The listing of the raw materials in V.H was corrected as was the reference to table V-K-1.

Other changes:

The specific changes are indicated in the Amendments section of the Title V Operating Permit on page 3.

RECOMMENDATION:

All applicable Federal, State and County regulations have been addressed in the permit application. The revised Title V Operating Permit should be approved.
