Big Beaver Borough, Beaver County  
APS# 799268; AUTH # 955701; PF# 7333773

On December 20, 2012, the Department received a synthetic minor operating permit initial application for Lindy Paving, Inc. / Koppel Facility located in Big Beaver Borough, Beaver County. The Department determined the initial application was administratively complete on January 23, 2013. The facility previously operating under Plan Approval 04-00730 issued on February 8, 2011. The Plan Approval was modified on June 28, 2011, effective June 13, 2011, for the temporary operation period startup and shakedown period of 180 days. The plan approval was then extended on December 13, 2011, June 13, 2012, and finally on December 13, 2012. The current extension expires June 13, 2013.

The proposed State Only Operating Permit was submitted on February 8, 2013 to Lindy Paving for review. In accordance with PA Code Title 25 §127.424, notice of intent to issue the operating permit was published in the *Pennsylvania Bulletin* on February 16, 2013. The comment period ended March 18, 2013. The company requested clarification on the stack testing condition found in Section E, Condition #003 pertained to the baghouse exhaust and not the storage tanks. No further comments were received.

On May 30, 2012, Lindy conducted emission tests on the baghouse exhaust to determine compliance with the emission limitations set forth in Plan Approval 04-00730. On April 3, 2013, the Source Testing Section Review considered the test results acceptable to the Department as representative of emissions at operating conditions similar to those during testing. The test results demonstrate compliance with Plan Approval PA-04-00730.

It is my recommendation that the State Only Operating Permit for Lindy Paving, Inc. / Koppel Facility, SOOP 04-00730, be issued.
