

HOW CAN YOU LEARN ABOUT YOUR LOCAL AIR QUALITY IN REAL TIME?

YOU'VE GOT OPTIONS!

EPA's AirNow.gov

Their website and app provide some of the most reliable monitoring data available. Search by zip code.

Allegheny County Health Department

ACHD is the local air quality regulator. The "dashboard" on their website displays hourly county monitor data.

PM2.5 Monitor Locations Click location on map to see hourly data for that monitor Click map or hit "escape" to clear selection

Highest Most Recent
PM2.5 AQI
75
7/19/2023 8:00 AM EST
Occurred at: Lawrenceville

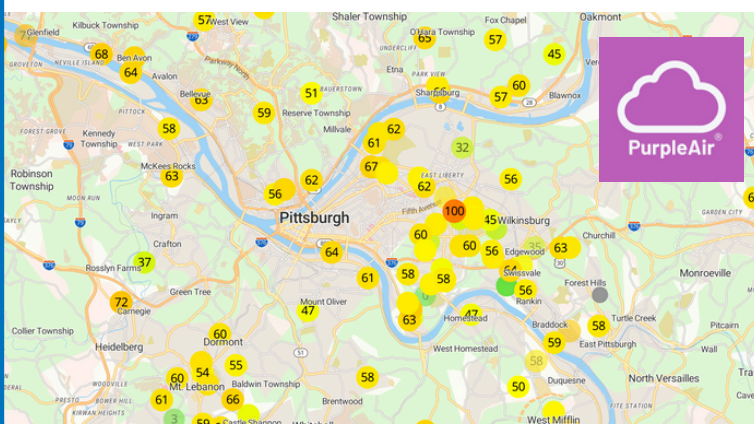

AQI: The site's current rolling 24-hour average air quality index for PM2.5.
